

## **About the company**

Book rental system help you to manage your book rental business with great ease. The book rental website from Tome the most complete online website sales book available on the market especially for book rentals.

Tome book rental system features product inventory, transaction history for users, account management from admin site, Subscriptions, availability wide range of books with affordable price.

You won't need a book rental manager when you have a bookstore, it reduces the cost of a book rental manager, increase profitability, accuracy and reduces the stress of the owner.

## **Current Situation**

The suppliers receives order for supply of books from customers. There are about 30 regular customers comprising of school children, IT Professionals, and research scholars. Discounts are availed for the regular customers, membership holders and customers who make bulk orders. Once the order is placed, the suppliers start the shipping process. All the shipping processes are taken care by the Fletex shipping company. For the process to be completed successfully, the transfer of books from the place of origin to the destination must be in synchronization.

After the delivery of books to the customer's place, the status is updated to us with the rental period of the book. In case of customer's willingness to extend the rental period of books, the number of days is extended which will be processed by shippers. Once the rental period gets over, the books are again collected from the customers by the shippers and delivered to the suppliers with all the records and details.

## **Problem in the current situation**

It has been said that one lives many lives, when one reads books. In today's world of speed, internet, television and malls, the habit of reading books has taken a hit. This can be attributed to the following reasons:

- No time to go browse through Book shops or Libraries.
- Lack of libraries in the vicinity
- Old library system with its difficulty to navigate and browse
- Books have become very expensive to purchase
- Advent of the Internet / TV as alternate sources of entertainment

### **Envisioned system**

Through this venture we intend to make reading books a hassle free, cost effective and pleasurable experience. All you have to do is just sign up, choose a membership plan and order the books that you want to read. We deliver the books to your doorstep, free of cost. After you finish reading, just inform us and we will deliver the next books and do a free pick of the previous set of books.
